

Reply for modifying the program

Input data:

No	Type	Problem	Modification	Results
2025/09/25				
50	Error	Image upload from phone are not stored	Expect to finish 09/28	
49	Error	New company does not applied in autofill	Expect to finish 09/28	Done
48	Error	Filter function for supplier sometime works with some errors	Expect to finish 09/28	Done
47	Require	Adding the sort function in admin side	Expect to finish 09/28	Done
46	Require	Select all button for customer side	Expect to finish 09/28	Done
45	Require	Delete MEMO, ASKNO	Expect to finish 09/28	Done
44	Require	Change C.Packing default value from YES to NO Modified for Cpacking could be empty (new require from 09/22)	Expect to finish 09/28	Done
43	Require	Change Po.NO to ORDER.NO	Expect to finish 09/28	Done
42	Require	Change BL.NO to IMP.BL	Expect to finish 09/28	Done
41	Require	Change Job.No to EXP.BL	Expect to finish 09/28	Done
40	Require	Change the address of company	Expect to finish 09/25	Done
2025/09/19				
39	Require	SL want a Query on the header of each column for searching	The searching function has been already developed and use as normally in above function in a same page, does it necessary to duplicate this function	Not done
38	Require	Add the delete function for tracking shipment mode	SL will discuss for later reply Waiting for the SL discussion	Waiting
37	Require	Add the auto fill mode for "COMPANY" input		Complete

36	Require	Add the excel download button to the customer side	Customer can select to print , but cannot chose all shipment at a same time	Complete
35	Require	Check the capacity of storing data base for storing	This one can be increased to a larger size of database but it depends on the price service → I will check the detail prices and send it back → Expect to show on 09/28	Not done
34	Require	In customer side, the search function also need to be modified to show only vessels belong to that company account/supply account		Complete
33	Require	Change Status from displaying by image to text		Complete
32	Error	Allow to input more than one image or pdf files	Some error for upload file to server Expect to finish 09/28	Revising
31	Require	Allow to sort data on the header of column		Complete
30	Require	In search function, the input for Vessel field is missing the auto fill function		Complete
29	Error	Table's size of shipment list does not auto adjust along with the changing of window size		Complete
28	Require	The page of shipment list need to be modify for easy using and convenience		Complete
27	Error	Selecting row functions does not display exactly as the number of row is choosing		Complete
26	Error	Update the ASK.no field does not work		Complete
25	Require	Make the supplier account also have a different page to see only shipment belong to them.		Complete
24	Recommen d	Make an ADMIN button for download and upload database (whole data not just shipment data)	Our own ideal. Expect to finish after all the above functions are finished	Not done
2025/04/14				

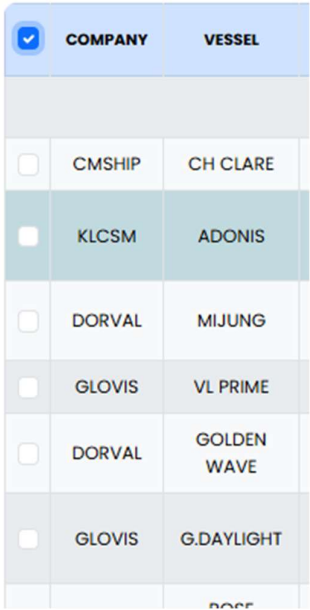

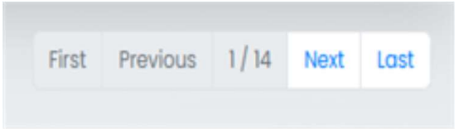

23	<p>User Perspective Suggestions:</p> <p>Clicking the 'Export Selections to Excel' button Line breaks are not being rendered correctly in the 'Size' field and other similar fields; all content appears on a single line instead of showing each line separately.</p> <table><tr><td>J</td></tr><tr><td>Size</td></tr><tr><td>23x12x2345x6x23</td></tr><tr><td>5x7x89x10x11</td></tr><tr><td>1x5x8</td></tr><tr><td>2x1x33x2x1</td></tr></table>	J	Size	23x12x2345x6x23	5x7x89x10x11	1x5x8	2x1x33x2x1	<table><tr><td>C</td><td>D</td><td>E</td><td>F</td><td>G</td><td>H</td><td>I</td><td>J</td><td>K</td><td>L</td></tr><tr><td>Doc</td><td>Ask.No</td><td>Po.No</td><td>Supplier</td><td>C.Packing</td><td>Qty</td><td>Unit</td><td>Size</td><td>Weight</td><td>In Da</td></tr><tr><td>SPJM</td><td></td><td>2024100070</td><td>EM테크</td><td>YES</td><td>2</td><td>CT</td><td>41 X 32 X 25 - 1130 X 21 X 20 - 11</td><td>22</td><td>2024-10</td></tr><tr><td>LTST</td><td></td><td>2024090018</td><td>테크로스</td><td>YES</td><td>3</td><td>PKG</td><td>110 X 110 X 130 - 690 * 225 X 25 X 25 - 2</td><td>1382</td><td>2024-10</td></tr><tr><td>SPVI</td><td></td><td>20240701062024070107</td><td>EM 테크</td><td>YES</td><td>1</td><td>PKG</td><td>102 X 102 X 137</td><td>211</td><td>2024-10</td></tr><tr><td></td><td></td><td>WORKING CLOTHES 芣</td><td>芣</td><td>YES</td><td>4</td><td>CT</td><td>40 X 30 X 20 - 7230 X 20 X 20 - 150 X 40 X 30 - 10</td><td>25</td><td>2024-10</td></tr><tr><td></td><td></td><td>GTPO-2024-5134</td><td>OMSC</td><td>YES</td><td>1</td><td>CT</td><td>31 X 21 X 21</td><td>2</td><td>2024-10</td></tr></table> <p>The issue above is caused by the characteristics of multi-line text in Excel, not by the website. 20	<div>SL Suggestions:</div> <div>SL intends to migrate existing operational data into the system for realistic testing.</div> <div>Approximately 3,000 to 4,000 records are generated per month, and testing is expected to cover around six months of data.</div> <div>Manually transferring this amount of data into Excel would be extremely time-consuming.</div> <div>For reference, manual copy-paste operations take about 6 seconds per entry.</div> <div>Therefore, a more efficient solution is needed—such as implementing a data download or export function—to streamline the migration process and support testing at scale.</div>	<div>Received information from SL (under development)</div> <div>1. Convert the old data to match the current data format.</div> <div>2. Develop a new function to upload data from an Excel file.</div>	Complete																																																																																								
19	<div>User Perspective Suggestions:</div> <div>It seems that there may be an issue with the search function when</div>	From my check, the search function is still available to return all 3 status: COMPLETED, START and STAY. The BLANK status is the default status and it also means no icon for this status.	Completed																																																																																								

		<p>the status is set to BLANK.</p> <p>Currently, the search only returns results where the status has been explicitly set to BLANK through the "Update Data Input" function.</p> <p>However, we would like to clarify whether this behavior is intended — should entries with no data input (left untouched) also be treated as BLANK status? Or has the code been designed this way on purpose?</p>	<p>So this is STAY status after search</p> <p>This is START status after search</p> <p>and this is COMPLETED status after search</p> <p>I have test for other status and they still work normally.</p> <p>About the BLANK status, there is no icon for this status.</p>	
18		<p>User Perspective Suggestions:</p> <p>When logging in with the customer ID, the SHIPMENT LIST displays as T.PACKING — this should be changed to C.PACKING.</p>	<p>The "Shipment display" in customer mode have been updated also</p> <p>Please check again</p>	Completed
17		<p>User Perspective Suggestions:</p> <p>'DATE ONBOARD' should be updated to 'ONBOARD DATE' in the update data for consistency.</p> <p>What I mean is, if they simply want to migrate data from the old website to the new one, they should at least provide us with their database as an SQL file. Then we can handle the transfer.</p>	<p>The name of "DATE ONBOARD" is changed to "ONBOARD DATE"</p> <p>Please check again</p>	Completed
16		<p>SL Suggestions:</p> <p>Decimal points in the QTY field are not necessary. Kindly remove all decimal points.</p> <p>*example</p>		Completed

		0.0 -> 0 1.0 -> 1		
15		SL Suggestions: SL has informed us that T.PACKING refers to simultaneous packing. Accordingly, please revise it to C.PACKING (Combined Packing).		Completed
14		SL Suggestions: SL has requested that the title "ODR" be changed to "Po.No"	We have change "ODR"to "Po.NO"	Completed
13		SL Suggestions: They have requested to add a column for "Ask.No", which refers to the invoice number, between "ODR" and "Doc". *example	Expect finish (04-07) The local version has been updated the new column. To upload to the host, it also is checked	Completed
12		SL Suggestions: For more refined data retrieval, we kindly request that the following fields be included in the Data Search functionality: Quantity (Qty), Weight, Port, and On Board Date.	Expect finish (04-07) The local version has included these fields in the Search function. To upload to the host, it also is checked	Completed
11		SL Suggestions: During the meeting, the need for API integration functionality was discussed. In the program currently under development, suppliers should be able to access a separate space where they can input and edit data directly. Once the data is entered, SL should be able to monitor it in real time. When the cargo physically arrives at SL, the entered data will be marked as "Stay", after which suppliers will no longer be able to make modifications. To support this process, a	We are waiting till SL finish their requirement for this function.	the details have not been clarified on the SL side either, so I will provide further explanation

		dedicated editing space for suppliers is required, along with a user interface (UI) that allows them to conveniently enter and manage data. *example		later.
10		SL Suggestions In addition to the previously mentioned functionality of autocomplete for the full name of the supplier, please check if it is possible to add a feature in the admin panel that allows modifying the supplier list as well. The supplier data consists of approximately 1,000 entries, and it is expected to be organized by the end of this week	Expect finish (04-10)	complete
9		SL Suggestions SL has informed us that program users want the SUPPLIER field to be filled in with the full name. For example, if the full name of a supplier in the data is "JIANGYIN GOWIN MARINE & TRADING CO LTD", users should be able to autocomplete it by typing just "JIANGYIN". Once I receive the supplier list from SL, I will forward it to you.	Expect finish (04-10)	complete
8		User Perspective Suggestions: I have confirmed that the two cases behave as you described. However, based on extensive usage of the program, I found that double-clicking to select and copy the entire content is inconvenient. Therefore, I would like to suggest an improvement:	Now it is fixed Please check again	Completed

		<p>In the existing app, when selecting the "Select All" checkbox to the left of COMPANY, only the data on the first page is selected, causing inconvenience during output. It is desired that the selection applies to all pages so that all data can be printed at once.</p>		
5		<p>User Perspective Suggestions:</p> <p>A feature to directly navigate to the entered page number is planned to resolve the inconvenience of page navigation.</p> <p>* example</p>  <p>Pagination / Direct Input / Infinite Scroll</p>	<p>I have updated new version, so it could apply now for staff display.</p>	Completed
4		<p>Symptom Description:</p> <p>An error occurs when saving data in the program. I am not sure where exactly the error is occurring, as it seems to happen randomly.</p>	<p>I believe this happens because some inputs are made during the</p>	Completed

		<p>However, refreshing the page allows the program to function normally again.</p> <p>*example</p>	<p>update website. So in the future we could input continuously to check its stable</p>	
3		<p>Symptom Description:</p> <p>When accessing the SL program on a mobile device while already logged in on a computer, an error message appears. I would like to confirm whether this is intended behavior for security reasons and if the code is properly implemented.</p>	<p>I have check again, we still can login in both version PC and mobile. As above, it happens because the update of website</p>	Completed
2		<p>User Perspective Suggestions:</p> <p>When the mouse is inside the blue-colored cell, the scroll wheel does not work, so I can't scroll down. (It's not extremely inconvenient, just a suggestion for improvement.)</p>	<p>I have updated this one, you can scroll now even in the blue line</p>	Completed
1		<p>User Perspective Suggestions:</p> <p>When entering data on a mobile phone, the vessel must be searched for or entered manually, which may be inconvenient. I was wondering if the autocomplete function is not applied on mobile devices.</p>	<p>I have check in other phone, this function still works.</p>	Completed
